OBJECTIVE

Self-studying Android development and learning more about engineering and business, I look to gain experience in mobile app development and business.

EXPERIENCE

Carbon Hacks, Dublin — *Co-Lead Organizer*

JANUARY 2018 - PRESENT

Currently planning and organizing a hackathon, partnering with Major League Hackathon for students to code for 24 hours to bring a world-changing idea to life.

Future Business Leaders of America, Dublin — *Treasurer*

APRIL 2018 - PRESENT

Current officer on the board of Dublin High School's chapter of FBLA.

Dashable, Dublin — *Co-Creator and Mobile App Developer*

MAY 2017 - JUNE 2017

Created mobile Android application to utilize with innovative Dashable product, an emergency button to be used in dangerous situations. Demonstrated excellent technical writing skills in project documentation.

EDUCATION

Dublin High School, Dublin — *Pursuing Advanced Scholar Diploma*

AUGUST 2016 - PRESENT

Part of Dublin Engineering and Design Academy, currently taking Principles of Engineering and prior completing Computer Science Principles. Also currently enrolled in AP Chemistry and Precalculus.

SKILLS

Problem solving

Readiness to learn

Android development (currently learning)

HTML, CSS

AWARDS

Semi-Finalist Entrepreneurship Challenge 2017 Presented Dashable to a professional panel of judges after achieving first in computer science class.

Academic Block D 2017-2018 Recognized for academic excellence by Dublin High School.

Principal Honor Roll 2016-2018 Academic achievement honored for cumulative 4.21 GPA.
