OBJECTIVE

I seek to gain experience in research, software development, and business practices.

EXPERIENCE

Liberate, Dublin — *Founder*

MAY 2018 - JUNE 2018

Created and marketed a charity ecommerce website UI/UX design selling exclusively fair trade-certified goods whose proceeds went toward human rights campaigns (i.e. Free the Slaves, Not for Sale).

Dublin Partners in Education, Dublin — *Teacher's Assistant*

JUNE 2018

Aided honors chemistry and biology teachers at Dublin High School in secretarial and teacher duties. Gained problem solving skills, office-related experience, and communication skills.

EDUCATION

Dublin High School, Dublin — *Pursuing Advanced Scholar Diploma*

AUGUST 2016 - PRESENT

Currently in AP Computer Science Applications. Completed prior engineering courses with the Dublin Engineering and Design Academy. Completed AP Chemistry with a 5 on the AP exam.

Stanford Pre-Collegiate Summer Institutes, Stanford University — *Engineering*

JUNE 2018 - JULY 2018

Studied engineering with Mike Galczynski, professor at University of Maryland. Acquired a strong foundation for multiple engineering disciplines. Learned about global environmental issues faced today.

LANGUAGES

Android, Java

HTML, CSS

SKILLS

Problem solving

Adaptability

Communication

ACHIEVEMENTS

Semi-Finalist Entrepreneurship Challenge, 2017-2018
Presented Liberate to a professional panel of judges after achieving first in computer science class.

4.36 Cumulative GPA
displays motivation and academic excellence.
